TECHNICAL SKILLS

Languages

Java (17/21)

SQL

Python

JavaScript

Dart

Backend

Spring Boot 3.x, 4.x

Spring Modulith

Spring Security

JPA/Hibernate

DevOps & Cloud

Docker

Azure (ACR/ACI)

GitHub Actions

GitLab CI

Firebase

Professional Summary

Highly motivated Java Backend Developer with 2 years of professional experience in designing and developing scalable backend systems. Proficient in the Spring ecosystem, database management, and cloud technologies. Seeking a challenging backend developer role to apply strong problem-solving skills and contribute to high-impact projects.

Experience

Software Developer

OYSTARTECH

Nov 2023 - May
2025

Spearheaded the architectural migration from distributed microservices to a modular monolith for OYGUL and OYTICKETS products which has more than 500,000+ users.

- **Payment & Fiscalization:** Implemented order management, share calculation, secure payment integrations (Click API), and automated tax fiscalization.
- **Idempotency:** Engineered robust idempotent API endpoints using SHA-256 hashing to guarantee safe financial transactions.
- **Real-Time Systems:** Built a scalable chat system using Socket.IO (Netty) and Redis Pub/Sub for live status tracking.
- **Performance Optimization:** Integrated Redis caching to reduce database load and improve response times for high-throughput queries.
- **AI Integration:** Implemented AI agents using Google GenAI (Gemini) with tool-calling loops and RAG patterns.
- **Architectural Migration:** Led the transition to a modular monolith using Spring Modulith, enforcing strict boundaries for Auth, Content, Transaction, and Chat modules.

Achievements

President Tech Award (2024) - 1st Place

Winner in Microservices & EdTech category. Led development of an AI styling solution. Secured \$100,000 prize.

AI & Tools

Gemini AI

Spring AI

LangChain

LiteLLM

LANGUAGES

Uzbek Native

English Upper-Int

Russian Intermediate

President Tech Award Hackathon (2025) - 2nd Place

Developed an innovative AI Agent for managing social media DMs and inventory using LangChain and Spring Boot.

Education

B.S. in Software Engineering 2023 - 2027

University of Management and Future Technologies

Professional Training 2021 - 2025

Najot Ta'lim / Startup Academy

Focus on DSA (C++), Java Core, Spring Framework, and Backend Architecture.
